

**Tournament Availability Policy**  
Effective May 21, 2008

All referees must submit an online application to apply for each tournament individually. Applications should be submitted as soon as possible since events may fill up. There are too many tournaments and referees to keep track of to accept telephone requests to referee at specific tournaments. This policy is in place to ensure accurate records are kept for each tournament.

For full sided tournaments, an e-mail will be sent to all referees on the list two weeks before each tournament starts. For smaller tournaments, an e-mail will be sent out to all referees on the list one week before each tournament.

Each tournament will have its own webpage with tournament specific information. This information will include tournament rules, driving directions, referee assignments, and any other important information.

Referees must own multiple jersey colors in order to change when color conflicts with teams come up.
